

# References

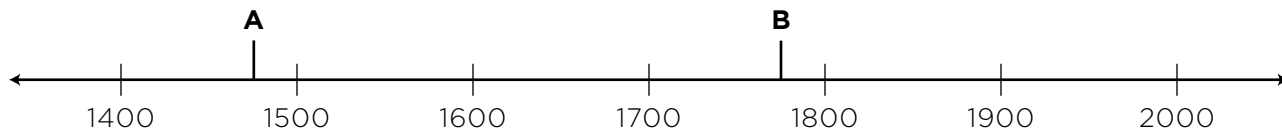

This section includes several charts that you will complete during your studies, such as a timeline, a glossary, and plots of various style attributes. Please follow the instructions for each reference and complete the items as directed in each section of the coursebook.

## Timeline Directions

Use this reference to mark the time of major events and developments as noted in this coursebook and its readings. Write the name of the event on one of the lettered lines in the area marked “Key.” Then put a mark on the timeline at the proper year and label that mark with the letter that names the event.

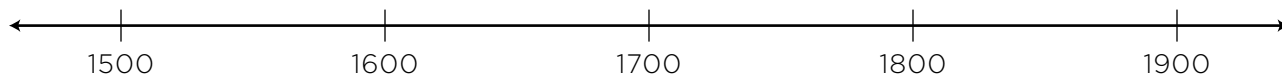

### Example:

If we were doing a history of the United States, the line might look something like this:

- |                                       |    |
|---------------------------------------|----|
| A. Columbus voyage to Americas (1492) | D. |
| B. American Revolution begins (1776)  | E. |
| C.                                    | F. |

## Reference 1: Timeline of German Beers

### Key:

- |    |    |
|----|----|
| A. | G. |
| B. | H. |
| C. | I. |
| D. | J. |
| E. | K. |
| F. | L. |
